

How Baywood Can Help Clients and Families

Baywood's mission is to enable people to live where, and how, they want to live. We can provide an alternative to moving to an assisted living facility or a nursing home. In addition, Baywood can:

- Provide care when family caregivers are absent
- Supplement assisted living facility care
- Supplement in-home hospice care

Baywood provides flexible hourly assistance, 24-hour care and overnight care.

Home Care is Affordable

Though individual situations vary, the cost of home care is generally similar to the cost of assisted living or a nursing home. And, Long Term Care Insurance can be used to pay for home care.

Standard Fees:

- \$29 per hour for Hourly Care
- \$300 per day for Live-in Care

Fees include regular nurse visits and routine R.N. Care Management. (See Fee Schedule for details.)

How to Get Started

- The first step is to arrange a complimentary consultation with one of our **Registered Nurse Care Managers**
- After the nurse consultation, we can usually start services within 24 hours

Greater Twin Cities Area

Why Choose Baywood

Baywood is the premier provider of private home care in Minnesota. We like to say that we are big enough to provide exceptional service, yet small enough to provide very personalized care.

Focused. Unlike many companies, Baywood is 100% focused on private home care — our attention is not diverted by other business activities.

Experienced. Baywood was founded in 2000. Our many years of experience mean better care for our clients and their families.

Local. Baywood is not a franchise, but rather, a Minnesota-based, 100% Minnesota-owned, company.

In addition, Baywood has:

- Exceptionally high standards for caregiver hiring
- The ability to provide guaranteed staffing through an extensive caregiver backup system
- An R.N. on call 24-hours a day
- A Better Business Bureau A+ Rating

About Baywood

Baywood was founded in 2000 by Dorothy Muffett, who left a V.P. position in a consumer products company to begin a second career more focused on people. From the beginning, Dorothy has said that our objectives as a company are to have:

- Happy clients
- Happy clients' families
- Happy employees

Fulfilling these objectives is our only focus — each and every day.

Our Home Care Services

Our caregivers, who are trained Home Health Aides (HHAs), are available for short or long hourly visits, overnight care or 24-hour, live-in care. The HHAs take care of housekeeping, prepare meals, run errands and drive clients to activities such as the doctor, shopping, place of worship or the afternoon bridge group. They also provide companionship and safety for people with memory loss.

The company has top-tier R.N. Care Managers who supervise the care being provided for each client, and whose only job is to make home care successful for our clients.

The HHAs provide excellent care, including:

- | | | |
|--|--|-----------------------------|
| • Bathing and toileting assistance | • Personal care | • Medication administration |
| • Assistance with transfers and mobility | • Monitoring of blood pressure and blood sugar | • Administration of oxygen |
| | | • Catheter care |

Baywood provides superior consistency of HHAs, and works hard to find a good fit between client and caregiver.

R.N. Care Management

Registered Nurses are available to provide ongoing Care Management, which can include such things as:

- Assessment of client condition
- Medication Management and Set-Up
- Family Conferences and Care Conferences
- Arranging services, such as Physical Therapy
- Ordering medical equipment
- Coordinating with doctors and other providers
- Attending doctor appointments

Our clients' lives are improved because of the services we provide — and that is what makes us happy.
